

Angela Liparota's Development Plan

2024

Angela is fluent in Italian; is able to share written and oral Italian with our program in meaningful ways; is able to resonate with bilingual families. Let's share Angela's culture with our families and program.

SPECIFIC

Angela will use some Italian during our sessions .
Angela will read some Italian children's stories at group time.
Angela will add Italian words alongside English words at some educational experiences.
Angela will share "Carnival of Venice", mask making celebration with our whole groups.
Angela will create one book, using children's agency linked to cultural diversity that will be shared with our cohort.

MEASURABLE

Angela will use Italian when appropriate.
Angela will read children's stories at group time, at least once a term in both English and Italian.
Angela will add Italian words next to displays we set up.
Angela will share Carnival of Venice with our centre, and we will critically reflect on the best ways to share this with our extended families and community.

ATTAINABLE

Angela can read, write and speak in Italian. We have bilingual stories and will purchase at least two more in Italian.

RELEVANT

We recognise that Angela deserves to be acknowledged for her fluent Italian skills by utilising these within the program. Her bilingual skills will connect her to other families who speak Italian or a second language. She can help us create an environment that uses both written and oral forms of varied languages. She can read stories, sing songs and create meaningful learning experiences related to her culture. We can celebrate her festivals and practices related to her culture, and provide opportunities for our cohort to do the same.

TIME-BASED

By November 2024
